DICTIONARY

PURPOSE
Symbolic name for DATAPLOT's dictionary file. It is used with the SEARCH and LIST commands.

DESCRIPTION
DATAPLOT's dictionary file contains an alphabetic list of all DATAPLOT commands with a brief (one line) description. It also lists the data files, macro files, program files, and experiment design files that are available on-line.

SYNTAX
None

EXAMPLES
SEARCH DICTIONARY PLOT
LIST DICTIONARY FOR I = 1 1 35

NOTE
The DICTIONARY file is stored in the DATAPLOT directory. It has the name DPDICF.TEX (or dpdicf.tex for Unix systems). The exact file name and the directory where it is stored can vary depending on the installation (see your local DATAPLOT implementor to find the exact name on your system).

If DATAPLOT is unable to open the dictionary file, it is most likely because the directory name is not specified correctly in the local DATAPLOT code. See your local DATAPLOT implementor to have this corrected.

DEFAULT
None

SYNONYMS
None
